In the SASCRO Orbit - Number 2

Dear SASCRO member,

I am delighted to announce that the following members have been nominated and accepted co-option onto the SASCRO Executive Committee:

1. Tumelo Moyaba from Limpopo.
2. Hildah Napo from Bloemfontein.

The SASCRO Committee can co-opt 2 members in terms of SAMA regulations and we have co-opted 1 member from the private and 1 from the State sector – as put forward by the representatives of the Private and State Sector respectively.

They will make important contributions to both SASCRO and to Radiation Oncology in South Africa

I take the opportunity at the beginning of 2016 to acknowledge the fine and skilled care of cancer patients by SASCRO members every day in both the State and Private Sector. I regard it as a great privilege to work within the Radiation Oncology community.

I wish you all the best for 2016.

Raymond Abratt
